EXPERIENCE

IT Support Intern, Jamaica Teaching Council

August 2024 - October 2024

- Sole Developer that created the company intranet to be used by all employees, built on the wordpress CMS using a combination of Javascript, PHP and CSS. Increased individual productivity and improved communication and collaboration amongst units.
- Controlled all aspects of design and development.
- Trained employees on how to use the application.

EDUCATION

The University of the West Indies, Mona

Bachelor of Arts - BA, Digital Media Production

September 2021 - July 2024

Web development, web design, Content management, etc.

PROJECTS

Intranet for the Jamaica Teaching Council

Developed the company intranet for the Jamaica Teaching Council built on wordpress with additional JavaScript, PHP and CSS code. The application includes features such as real time meeting and event updates, inventory management, a document repository, employee messaging etc.

Salary Budgeting Application

Developed a responsive budgeting application using React to help users allocate their salary into spending categories based on lifestyle preferences and financial goals. Implemented backend functionality with Node.js, Express, and a MongoDB database to handle user authentication, dynamic budgeting logic, and data storage. Integrated interactive visualizations with Chart.js to display spending trends and goal progress.

SKILLS

HTML & CSS

Javascript

Git

Node.js

Wordpress

PHP
